PROFILE SUMMARY

Experienced and detail-oriented Front-End Developer with 3 years of expertise in creating high-performance web applications using Next.js, TypeScript, and Tailwind CSS. Proven ability to deliver scalable and responsive solutions, focusing on user experience and performance. Seeking a role where I can leverage my skills in modern front-end technologies, strategic problem-solving, and Agile methodologies to drive innovative and impactful projects.

WORK EXPERIENCE

W3YZ

2021-2024

Front-end

- At W3YZ, I developed dynamic and responsive web applications using GraphQL, Next.js, Tailwind CSS, and REST APIs. I utilized Git for version control and handled API integrations, optimized web performance, and resolved technical issues. Additionally, I managed project workflows and tracked progress using JIRA, ensuring timely project completion and meeting client requirements. I focused on creating user-friendly interfaces and applying best practices to enhance overall project quality.

Prelogos

2022-Present

Front-end (Freelance)

- As a Web Developer, I developed high-performance, user-friendly web applications using Next.js, TypeScript, Tailwind CSS, and Strapi CMS. I analyzed client requirements, delivered solutions on time, and resolved technical issues independently. Experienced with Git and Agile methodologies, I effectively collaborated with various teams to achieve project goals.

RikaSoft

2021-2021

Front-end

- At RikaSoft, I developed dynamic and responsive web applications using HTML, Bootstrap, and JavaScript. I collaborated with design and development teams to meet client requirements and optimized web performance. Gained experience in resolving technical issues and delivering projects on time.
